Wedding Flowers

www.valerieofdore.co.uk

Introduction

We run an exciting and innovative floristry business, which is reflected in our floristry designs and staff experience, to inspire your wedding choices.

We offer an individual professional service, creating beautiful designs for every kind of wedding. We take time to consider every detail and help to make your wedding day as personal, original and memorable as possible. Our expertise and creativity allow us to create the perfect wedding.

Planning

Organising your wedding flowers can seem daunting but with our imagination and enthusiasm, we'll make the planning stages seem exciting and fun.

Consultations are arranged to suit you. In relaxed surroundings, we build up a picture of your wedding. We invite you to browse through our exciting portfolio as well as the latest wedding publications and offer design ideas to suit all budgets.

We welcome your own thoughts and ideas and enjoy discovering your particular taste and sense of style. Whether you lean towards the romance of a loosely tied bouquet of scented roses or prefer the minimal impact of the white arum lily, flowers say a lot about you.

We will help you choose with care, tying together a unique look and creating an ambience which sums up the mood of your special day.

The Big Day

On the big day you want to feel confident and relaxed. We take only one wedding booking per day which ensures that you and your flowers receive our full attention. This allows us to be flexible and available when you need us.

Having visited your wedding and reception venues in advance, we can be certain of every detail. All your flowers will be designed to create the maximum impact. Our aim is to delight you and your guests and make your wedding dreams come true.
